IT and Accounting Job Secured Training program

For

Adi Dravidar and Tribal Youth

*Empowering the Next Generation of Innovators*

ABOUT THE TRAINING PROGRAM

➢ The purpose of the training program on Emerging Technologies for Youth is to empower young individuals with the knowledge and skills required to navigate and help them to purse the related jobs.

➢ The program aims to introduce participants to cutting-edge technologies such as Artificial Intelligence, Internet of Things, Blockchain, Virtual Reality, and 5G, providing them with a comprehensive understanding of these innovations and their potential applications.

➢ Through hands-on workshops and mentorship opportunities, the program seeks to foster creativity, critical thinking, and problem-solving abilities, encouraging participants to become the next generation of innovators and contributing to positive societal and economic impact.

INTERNET OF THINGS

VECTOR ILLUSTRATION

List of Courses

- Data Analyst

- AI -Artificial intelligence

- Digital Marketing

- Software Application Products(SAP)

- Multimedia Animation courses

- Cloud Computing

- Advanced Tally

- **Data analyst** The demand for data analyst is on the rise in various industries such as manufacturing ,marketing , travel etc.

- **AI - Artificial intelligence** to learn, adapt and perform much faster than humans and are programmed to do so. Robotics and integration with IoT devices have taken machines to think and work to a new level where they out-perform humans in their cognitive abilities and smarts.

- **Digital Marketing** skills ranks among the top trending job skills as per analysis of Google Trends search data.

- **Software Application Products (SAP)** allows professionals to work out better with SAP modules. Training allows professionals to handle software presented by SAP towards better work process and data management in organizations.

- **Multimedia Animation** benefits are: Enhancing Visual Understanding: Students can learn difficult ideas in a more dynamic and visually appealing way by using 2D & 3D animations. They can help visualize ideas that are normally difficult to picture.

- **Cloud Computing** cloud computing provides on demand access to various computer services and Helps Prove Your Expertise and Also Promotes Your Credibility among Employer and Peers.

- **Advance level Tally** Some of the leading job roles offered after a Tally course are **Accountant Officer, Tally Operator, Service Coordinator Tally, Account Executive, Financial Analyst, and Executive Assistant.**
